I was born and grew up in Mohua then went to Canterbury University completing teacher training and a Bachelor of Science and have continued ongoing study in Post Graduate papers, Te Reo, Counselling, Social work and Maori Development.

I returned to Nelson to be closer to home and the whanau after completing University.

I have extensive experience with Iwi and community groups e.g. Matua Whangai, Marae, Maori Womens Welfare League, Health, Fishing, Arts and craft on a professional and personal level with kaumatua support and am certainly no stranger to robust debate for better outcomes.

My knowledge, skills and experience are:

- in Strategic planning, annual plans, governance and management matters.
- in Governance and financial training to IOD standards with 4 Organisations
- in budgeting, appraisal systems
- as a promoter and practitioner of Te Reo me ona tikanga
- in exploring solution based outcomes with a proven track record
- used to protect Iwi rights to ensure sustainability of our taonga into the future
- used to manage transparent accountable processes

I am passionate about a better life for whanau and Iwi.

The future is exciting with many challenges ahead. I offer my services as a Trustee and should I be successful will work hard on your behalf achieve positive outcomes.
